DIRECTORY

# CERTIFIED NEURO SPECIALIST

## Professional Directory

THE NEURO SPECIALIST INSTITUTE

# ABOUT CNS

THE NEURO SPECIALIST INSTITUTE is comprised of healthcare professionals engaged in academia, research, and clinical practice in the field of neurorehabilitation.
The INSTITUTE provides continuing education for healthcare professionals to become CNS or a Certified Neuro Specialist.
CNS® is a certification mark registered with the USPTO, where its certification program is legitimized and protected at the federal level. Additionally, CNS is an international certification that is available to healthcare professionals globally.

The following individuals have achieved the certification designation, CNS or Certified Neuro Specialist. Individuals with an advanced certification have earned the designation, CNS-Advanced.

Please note this list is not exhaustive; some professionals have declined to publicize their information in this Directory.

CERTIFIED NEURO SPECIALISTS treat the individual at the human level; they take into account one's personal context in order to make rehabilitation stimulating and meaningful. Incorporating approaches that are dynamic and client-centered improve outcomes in physical, functional, and neurological performance.
