THE NEURO SPECIALIST INSTITUTE

ABOUT CNS

THE NEURO SPECIALIST INSTITUTE is made up of a team of healthcare professionals engaged in high level research and intervention in the field of neurorehabilitation. The INSTITUTE provides continuing education for healthcare professionals to become CNS or a Certified Neuro Specialist. CNS[®] is a certification mark registered with the USPTO - its grueling certification program is legitimized and protected at the federal level. Additionally, CNS is an international certification that is available to healthcare professionals from all nations.

The following individuals have achieved the certification designation, CNS or Certified Neuro Specialist. Individuals with an advanced certification have earned the designation, CNS-Advanced.

Please note this list is not exhaustive; some professionals have declined to publicize their information in this Directory.

CERTIFIED NEURO SPECIALISTS treat the individual at the human level; they take into account one's personal context in order to make rehabilitation stimulating and meaningful. Incorporating approaches that are dynamic and client-centered improve outcomes in physical, functional, and neurological performance.
